OBJECTIVE

Actively pursuing a role in software engineering that allows me to leverage my skills while continuously enhancing my capabilities and efficiently contributing to organizational achievements.
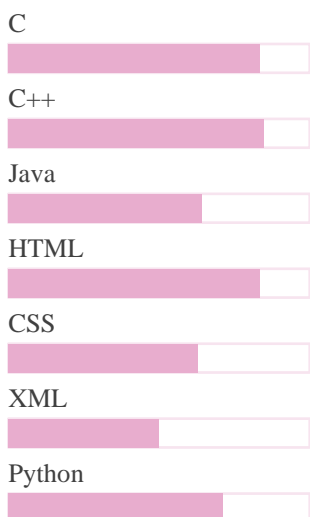

EDUCATION

Undergraduate: 7.76
B.E. in Information Science & Engineering | B.N.M. Institute of Technology (2020 - 2024)
Class 12: 77.33%
Science (PCMCs) | B.N.M. PU College (2018 – 2020)
Class 10: 74.88%
KSEEB | Carmel School (2018)

PROJECTS UNDERTAKEN

Cracking a wi-fi password - Successfully implemented a foundational password cracking method, utilizing exhaustive combinations derived from gathered information [all possible combinations].

Hotel Database Management System – Deployed a website on localhost designed for both end users and administrators, managing hotel operations using HTML, CSS and JavaScript integrated with a MySQL database.

Online Course Management System - Designed a frontend for a user to search courses available online along with its details using html and CSS and an admin page granting privileges for course management - add, delete and modify courses. Further deployed with Python UI to store data.

Daily Planner Mobile Application - Developed a task management application with an additional feature for tracking water consumption. It allows users to create and manage a list of tasks.

ACHIEVEMENTS

Campus Ambassador - Currently the campus ambassador of Tequed Labs fostering connections between the institution and the industry.

Hackathon - Placed third in the hackathon conducted on campus by Microsoft Azure as part of Skill Development Program.

Bala Janaagraha - Volunteered as a mentor at the NGO associating with 12 students for a duration of 3 months to collaboratively complete projects aimed at positively impacting society.

I hereby declare that all the above-mentioned information is true and correct to the best of my knowledge.
